Official Odoo Partner in Bangladesh DEMO FIRST

Your problems, solved in Odoo. Before you sign anything.

2015
in business since

40+
employees in Dhaka

120+
countries using our software products

8
software products of our own

We implement, customize and support Odoo ERP for growing businesses in Bangladesh. Start with a guided demo of your key workflows, then agree on the scope, timeline and cost.

TODAY

- Stock never matches the books
- Orders scattered in Excel and WhatsApp
- Unclear customer balances and overdue payments
- Month-end reports take days
- Payroll done by hand

Your demo
built around your process

Your business, connected.

With Odoo, implemented by **HasTech**

- Live stock in every location
- Every order in one place
- Dues tracked and followed up
- Key reports without manual consolidation
- Payroll calculated automatically

Why HasTech / Built Around How You Work

Four Reasons Clients Choose HasTech For Odoo

See a working demo before you commit

We build a demo around your own problems. You decide after you have seen it.

In-house development expertise

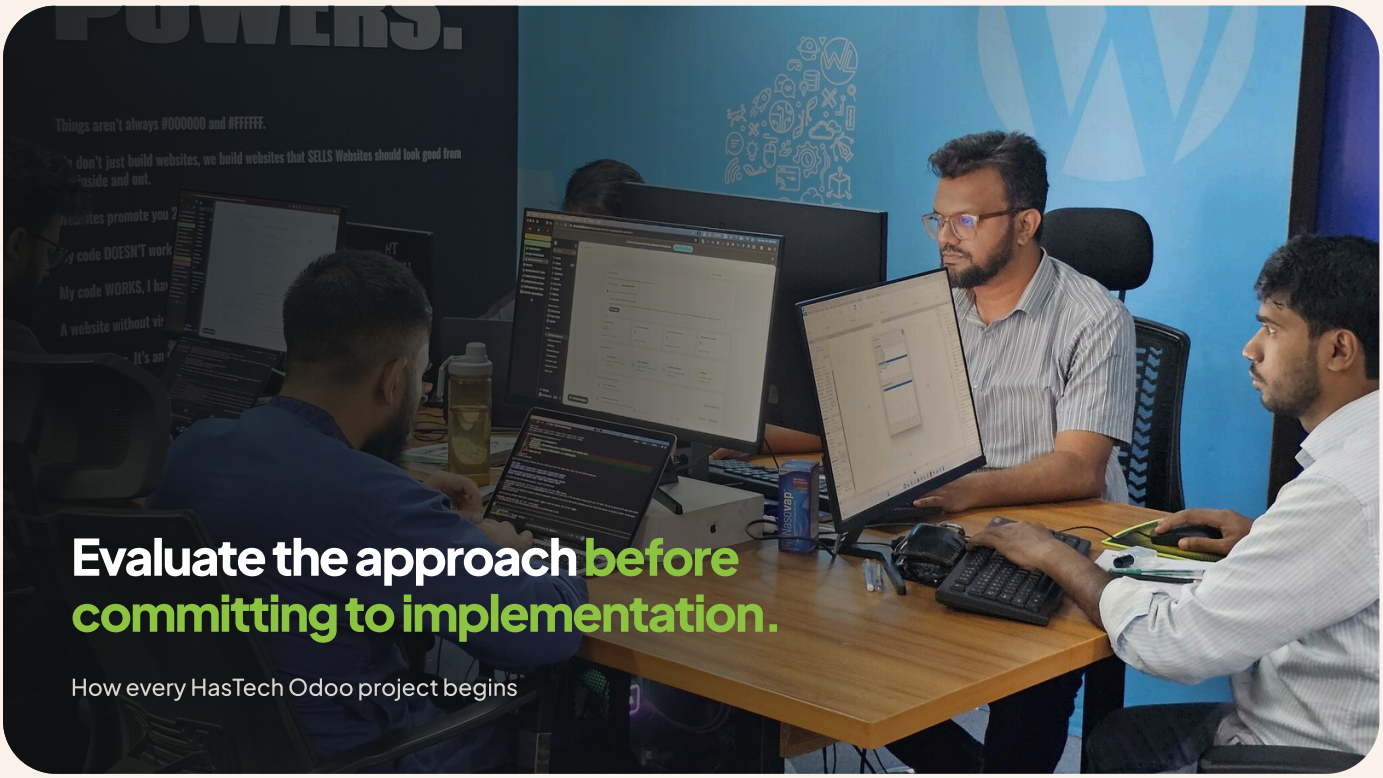

We configure Odoo around your workflows and develop extensions where needed.

A team in Dhaka that comes to you

Office visits, training in Bangla, and a setup made for business in Bangladesh.

We stay after go-live

Continued support from our in-house team.

Process / Demo First

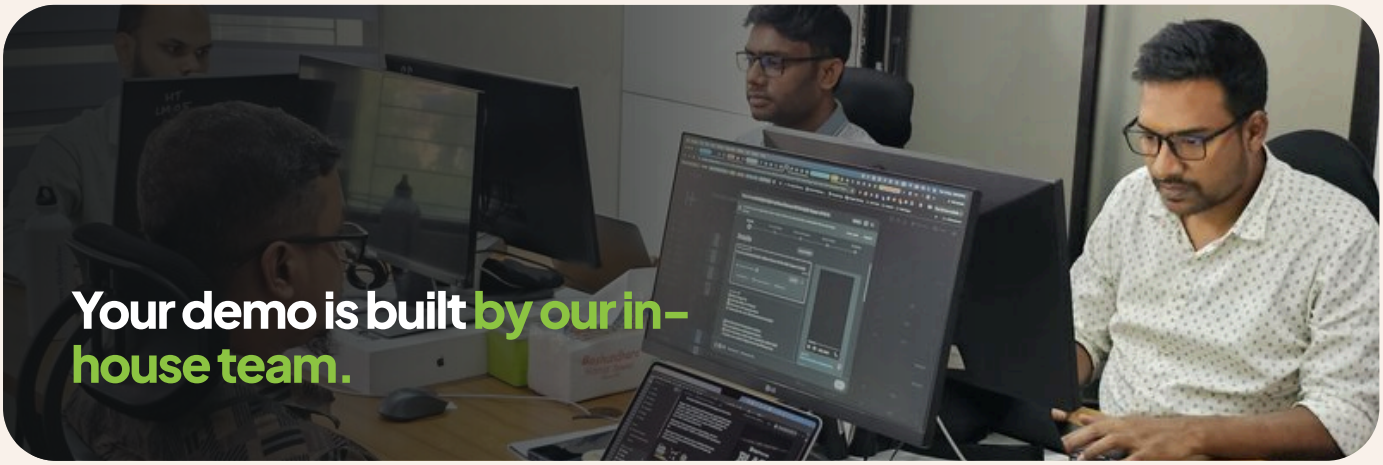

Seven Steps, From First Meeting To Long-Term Support

Demo First. Project After.

Planning and implementation start only after you agree the demo fits your business.

- You see it working
- You decide
- Then we plan and build

1. **Discovery meeting**
   We listen to how your business runs and where it hurts.
2. **Problem-solving demo**
   We build a demo in Odoo around your problems.
3. **Your decision** YOUR CALL
   You go ahead only if the demo fits.
4. **Project plan**
   Scope, timeline and cost agreed in writing.
5. **Implementation**
   We configure, customize, integrate and migrate.
6. **Training & go-live**
   Your team is trained and the system goes live.
7. **Ongoing support**
   Help desk, fixes and maintenance. New features are scoped separately.
